There is a secret to our success.
It's called community.

Assisted living in a class by itself... with the highest level of licensure.

Willow Towers is a gracious living environment whose residents enjoy the very best services and amenities. This inviting not-for-profit community is widely recognized for its quality: the 126-unit community garnered the Platinum Award for *Best in Assisted Living* from the National Association of Home Builders. Residents who require additional services are offered customized care tailored to their individual needs.

Our Phoenix Memory Support Program, located on a separate floor, caters to residents with Alzheimer's and related disorders.

The elegance of the building is obvious, but more importantly, our residents can attest to a sense of community that embraces everyone. Willow Towers does not only advertise *assisted living in a class by itself*, but adds: *we guarantee it*. You are warmly invited to stop by and find out what makes us so confident of our offering.
